

# Catholic Schools Week 2021

## Ultimum Pontentiae

January 31 - February 5th

*Saint Thomas Aquinas described human virtue as ultimum potentiae; meaning the limit of power, or the furthest point that power can reach. We are most powerful as human beings when we choose to act with virtue. Our striving towards this ultimum potentiae, always moving towards this furthest point that power can reach, implies an ongoing hope or stretching towards that which we were created for; to be conformed into the likeness of Christ--in short, becoming the best versions of ourselves (saints if you will). - From Superintendent, Robin Perry*
